

Classic Ready-To-Feed 70ml

Kendamil Classic Ready to Feed Infant formula is available as 70ml bottles and comes with pre-sterilised teats for easy feeding. Kendamil is free from palm oil and fish oil and is suitable as the sole source of nutrition from birth to 6 months, or as part of a weaning diet from 6 to 12 months. This product is available for NHS ordering using code ABT096.

**Whole milk from
grass-fed cows**

**No palm, soy,
or fish oil**

**Vegetarian
friendly**

Presentation

Kendamil Ready To Feed 250ml is packaged in UHT sterilised plastic bottles.

Contraindications

Not suitable for infants with galactosaemia, lactose intolerance, or allergy to any of the ingredients.

Shelf life

12 months from date of manufacture.

Storage

Before use please check best before date. Do not heat feeds in a microwave, hot spots may occur and cause scalding. Never leave your baby alone during feeding. Store in a cool dry place between 5°C and 25°C. Bottles should remain in the box or in a dark place to protect the contents from light. Once the bottle is opened, before feeding, the milk can be kept refrigerated at <5°C for maximum 24 hours. For hygiene reasons, after feeding, discard unfinished milk in the feeding bottle immediately after use. Bottles and teats for single use only.

IMPORTANT NOTICE

This information is intended for Healthcare Professional use only. Breastfeeding is best for babies. Infant milk is suitable from birth when babies are not breastfed. The use of infant formula should be made only on the advice of a healthcare professional.

Preparation

CHECK CAP BEFORE OPENING. DO NOT USE IF SEAL IS BROKEN. PLEASE FOLLOW THESE INSTRUCTIONS CAREFULLY FAILURE TO FOLLOW INSTRUCTIONS MAY MAKE YOUR BABY ILL.

1. Wash hands and warm the feed by standing the sealed bottle in a bain marie of hot water.
2. SHAKE BOTTLE WELL. Unscrew cap and carefully remove aluminium foil seal. Dispose of both cap and seal carefully.
3. Add sterilised teat by holding the teat ring and screwing directly onto the bottle. Test temperature on your wrist before feeding. If feed has not been used within 1 hour, we recommend that you throw it away and start again. Do not add food products such as cows' milk and do not re-heat in a microwave.
